# Numerical data: Programming exercises

[Send feedback](#)

Take some time to complete the following exercises to practice what you've learned in [First steps with numerical data](#).

- **Get statistics on a dataset**, which shows you how to find columns containing blatant outliers:

[Open math statistics exercise](#)

- **Find the bad part of the dataset**, which guides you through visual and mathematical ways to find hidden *bad* values in a dataset:

[Open "bad part" dataset exercise](#)

★ Programming exercises run directly in your browser (no setup required!) using the [Colaboratory](#) platform. Colaboratory is supported on most major browsers, and is most thoroughly tested on desktop versions of Chrome and Firefox.
